

HUNTINGTON MUSEUM OF ART

October 29, 2009

To Whom It May Concern:

Re: Support of proposal for funding for the Huntington Community Gardens and the West Virginia State University Extension Service project.

This letter is to support the efforts of the Huntington Community Gardens outreach program. The Huntington Museum of Art has actively partnered with the Weed and Seed program and the Huntington Housing Authority in the past and heartily approves of the progress that has been made over the years. We know how meaningful it has been to the students who have participated and feel that this type of programming has a direct impact upon these young people in helping them resist substance abuse.

If there is any way that the Huntington Museum of Art may interact and support a partnership effort, we shall be happy to do so.

Good luck to you in all your endeavors, and thank you for your continuous hard work in support of our children.

Sincerely,

Katherine Cox
Director of Education
